

Quality system-Focusun ice machine

We implement strict product quality system according to ISO90001:2000 management system and European standards for electric products.

ISO is a network of the national standards institutes of 162 countries, one member per country, with a Central Secretariat in Geneva, Switzerland, that coordinates the system. ISO enables a consensus to be reached on solutions that meet both the requirements of business and the broader needs of society

CE Marking applies to products regulated by certain European health, safety and environmental protection legislation. CE indicates that the product it is affixed to conform to all relevant essential requirements of safety, public health and consumer protection. And other applicable provisions that have been imposed upon it by means of European directives.

Focusun focuses on customers' satisfaction, establishes quality policy & target, and makes every effort to achieve continuity. Clear responsibility and duty for every department to promote stable and continuous improvement of both management and service. Customer-oriented approaches efficiently improve the relationship between Focusun and customers who are always satisfied.
