Standard power supply for small capacity plate ice machine is 380V/3P/50Hz and it can be customized to meet your electrical requirements.

With Bitzer semi-hermetic piston compressor it can be put into use when connecting the water and the electricity source.

Small capacity plate ice machine technical parameter

Model	Capacity	Refrigerant	Electricity consumption	Installment power	Operating weight	Dimension
--	Ton/D	--	Kw	Kw	Kg	mm
FIP-10	1	R22/R404A	6.69	8	960	1700×1200×1700
FIP-20	2	R22/R404A	9.92	12	1200	2200×1600×2000
FIP-30	3	R22/R404A	14.41	18	1250	2200×1500×2000
FIP-50	5	R22/R404A	25.15	30	1550	2000×1800×2200
FIP-60	6	R22/R404A	30.60	36	1860	2200×2000×2200

Standard condition: Dry ball temperature is 33°C and water inlet temperature is 20°C.
